# RED WAR'S QUICK COURSE

## Further Victories For American Soldiers and Sailors.

The Philippine insurgents succeeded in capturing all of the fortifications at Subig bay, a few miles north of Manila, except Isla Gran, on an island in the bay. The German warship Irene anchored between the island and the mainland and her captain refused to allow the insurgents to cross the bay to attack the fort. Aguinaldo, the insurgent chief sent word to Admiral Dewey, of the situation. Dewey immediately dispatched the Concord and Raleigh to Subig bay, with orders, to take the island, in spite of the resistance of the Irene. On July 7th they sailed into the bay and immediately opened fire on the forts. The Irene withdrew without demonstration, and the forts and 300 officers and men surrendered and were turned over to the insurgents.

The German fleet of five war ships continues in and about Manila, and by its open friendship for the Spanish has caused great irritation among the Americans, and greatly encouraged the Spanish to continued resistance.

#### THE AMERICAN TROOPS

Of the first expedition are encamped at Cavite. No attempt to capture Manila will be made until more troops arrive.

#### MORE MANILA TROOPS.

The fourth expedition carrying troops to Manila will consist of five steamers: the Peru, Puebla, Rio Janeiro, Pennsyl vania and St. Paul, and will number 4400 men.

The troops were to go aboard the Peru and Puebla on Friday, July 15th, and sail as soon as possible, probably on the 16th. These two ships will carry regulars and volunteers from North Dakota, Wyoming and Idaho.

The other three ships will leave about the 20th or soon thereafter.

It was not settled whether the Peru and Puebla should wait at Honolulu for the other three ships, or coal and proceed

direct to Manila. The three ships of the second detachment will carry regulars and volunteers from California, Montana and South Dakota.

#### GAMARA'S FLEET.

Admiral Camara's fleet which had passed through the Red Sea bound for Manila has been ordered to return and is on its way back to Spain.

An American fleet consisting of two battleships, three auxiliary cruisers and a number of colliers and supply ships were preparing for sea, under orders to seek and destroy Camara's fleet, bombard Spanish forts and destroy the Spanish coastwise commerce.

LOOK FOR PEACE NOW.

WASHINGTON, July 12 .- Although peace, it may bear repetition once more, in view of the express denial given at the State Department to such of the stories emanating from European sources as to create the impression that the United States Government or any of its representatives had made any move in this direction. The fact is today as it has been-the first overtures in the direction of peace must come from Spain directly or in-

MADRID, July 12.—Duke Almodovar de Rio, Minister of Foreign Affairs, said there was nothing to justify the reports regarding a conclusion of

PARIS, July 12 .-- The officials of the Spanish Embassy here communicated to the press this evening a dispatch from Madrid declaring it came from an authoratative source. It set forth in substance that although Spain was only fighting in order to maintain her right to repel unjust aggression, she will continue the struggle until "she obtains an honorable peace, whatever sacrifices may be necessary to attain

this end. NEW YORK, July 12.-The resignation of Sagasta is looked on in London as the first sign of peace.

LONDON, July 13 .- The Madrid correspondent of the Daily Mail says: Senor Sagasta, being asked as to whether a decision had been made regarding peace, replied: "No. But what remedy can there be but to make

peace? The Ministerialists insist that the regular Army in Cuba does not object again to surrender and is determined to a conclusion of peace, but that the to resist. Siege gvns have been landed laying that stretch of wire will be 20,000 volunteers are determined to conlinue the war.

MADRID, July 12, (via Bayonne, Ministers have handed in their resignations to the Premier, Senor Sagasta, who has explained the situation to the Queen Regent. But the difficulty is that nobody is willing to accept the Premiership. While the military party urges war, a large proportion of the

peace negotiations. One paper says: "If we make peace now we deserve to be shot in the face. If Santiago falls the statement has been repeated day there remain 180,000 Spaniards in Cuba there is a clause providing that the been made to our Government for who are determined to defend the ter-

#### GEN. MILES IN COMMAND.

PLAYA DEL ESTE, July 12 .- General Miles assumed command of the States ships are under charter, that it American Army in front of Santioga will be ruled that no change will be togay, Miles announced in emphatic made until Congress acts. The officers terms that the campaign must end of the Commission will be: Disbursing quickly. He added that Santiago would officer, Daniel A. Ray: Senator Culbe ours within three days. Miles was lom's clerk, Secretary Henry S. Hayes; shocked at the condition in which he found Siboney and ordered that the grapher, W. M. Blumenberg, official town be destroyed by fire. This was a reporter of the Senate. sanitary measure. Many wooden buildings, including that in which Miles established his headquarters temporarily, are now in flames.

#### BEFORE SANTIAGO.

greatly strengthened, and it is now ima battle will occur between these forces.

The American batteries did not open bombardment will probably be resumand are being placed in position. The fleet has been bombarding the city with great effect. Several shells burst

## YELLOW FEVER IN CAMP.

The war party refuses to consider Guantanamo and other towns in the vi-sail with the next expedition.

cinity of Camp McCalla, and along the coast, has resulted in the establishment of the strictest quarantine. Hereafter no communication will be allowed with the north side of the bay, and no one will be permitted to land from vessels entering the harbor here without a special permit from the commanding officer. The rules will also be rigidly enforced at Camp McCalla, although the general health of the American Marines is remarkably good.

1898.—SEMI-WEEKLY.

#### GERMANY FEARS FOR SAMUA.

BERLIN, July 12.-The Vossische Zeitung, foreseeing that after the annexation of Hawaii it is "possible that the United States may attempt to acqu.re the Samoan Islands also," says: America has practically no rights in Samos, and Germany's influence must rank before America's in the future fate of the Islands. Germany will. therefore, take care that her interests are protected in the final settlement.

**Informal Discussion in Cabinet at** Washington

DELEGATE TERRITORY WITH

To Follow Present Constitution and Code-Land Laws-Coasting. Officers of Commission.

WASHINGTON, July 12.-The new possession of Hawaii was brought up in the Cabinet today for a little informal discussion. Senator Cullom has been selected as chairman of the Congressional Commissioners. At their meeting today Cullom, Morgan and Hitt discussed, as did the members of the Cabinet, the form of government which shall be given the Islands.

The prevailing view among the President's counselors and the Commissioners as well, is that the organic law shall build on the lines of that under which existing United States territories exist. It is regarded as just and have a delegate in Congress, and that there should be a legislative body provided. The Commissioners will examine the present Constitution and code of laws, and wherever the latter do not conflict with the laws of this country they will be permitted to stand.

The land laws of Hawaii relative to Government control differ somewhat from those of the United States. So far as possible the Hawaiian law will be preserved.

Senator Morgan said today that the Commission hoped to finish its work in two months after reaching Hawaii, and would probably report its recommendations to Congress. "But," he continued, "this is no special hurry. They can get along all right for a long time to come with their present laws. The Treasury Department is wrestling with the question of whether at once trade with Honolulu becomes coasting trade. In the Newlands resolution customs laws of the Islands shall be operative until the Commission reports a scheme of government. The question is whether this carries the shipping laws as well, and it is probable owing to the fact that so many United Congressman Hitt's clerk and steno-

#### CABLE INTERESTS NOW.

WASHINGTON July 12.-Interest in

the Hawaiian cable is growing and several substitute measures are being prepared for those now before both NEW YORK, July 12.-A cable to branches of Congress. # HAWAII TO A TERRITORY

## Commissioners Named --- Flag Raising--Garrison.

The joint resolution annexing Hawaii provides for the appointment by the President of a commission of five, two of whom shall be residents of Hawaii.

The duties of the commission are to study the conditions in Hawaii and report to Congress such legislation as the commission deems proper for the purpose of extending American laws and procedure over Hawaii, and providing a form of local government for the "Territory of Hawaii."

#### THE COMMISSIONERS.

On Saturday, July 9th, President McKinley appointed on this commission, Shelby M. Cullom, U. S. Senater from Illinois: John T. Morgan, U. S. Senator from Alabama; Robert R. Hitt, member of Congress from Illinois, Sanford B. Dole, President of Hawaii; Walter F. Frear, judge of the Hawaiian Supreme Court.

#### WHO THE COMMISSIONERS ARE.

Senator Cullom has for many years represented the State of Illinois in the United States Senate, and is a member of the Foreign Affairs Committee of that body. Although he has taken no prominent public part in connection with the annexation question, he has at all times been a warm advocate of the measure, and done much effective work in its support. He is considered one of the ablest and most broad-minded members of the Senate.

Senator Morgan of Alabama needs no introduction to Hawaiian readers. A Democrat, from the Ultra conservative south, he has since January, 1893, been the most active advocate of annexation. He has repeatedly expressed himself as favoring the immediate admission of Hawaii as a State. There is no probability of this being done, but it evidences the extremely friendly feeling which Mr. Morgan entertains for the islands. Mr. Morgan was chairman of the Senate Foreign Affairs Committee during the second Cleveland Administration, and conducted the investigation and wrote the famous "Morgan Report," which refuted the "Blount Report," vindicated Minister Stevens and Captain Wiltse, upheld the Revolution of 1893 and justified the formation of the Provisional Government.

Representative Hitt is Chairman of the Foreign Relations Committee of the House of Representatives, and had charge of the Annexation Resolutions in that body. He has been an active advocate of annexation ever since 1893; but was an annexationist long before that. He was Assistant Secretary of State under the "great annexationist" Seward, and was a member of the commission which reported favorably upon the annexation of San Domingo. Mr. Hitt is recognized as the leading authority in the House of Representatives upon the subject of Foreign Affairs and has made special study of the problems arising out of the annexation of new territory.

If Hawaii had selected the committee themselves they could not have selected three men better qualified for the task or more friendly inclined toward Hawaii than the American members of the commission.

As to the Hawaiian members, nothing could be more fitting and gratifying than the appointment of President Dole; and the Hawaiian Bar possesses no abler representative than Judge

The membership and character of the commission is an index and an earnest of the extreme friendship of President Mc-Kinley for Hawaii, and of the liberal spirit in which the adjustment of the details of the new government will be approached.

#### PLANS OF THE COMMISSION.

The American members of the Commission met at Washington on July 12th, and decided to come to Hawaii as soon as arrangements could be made. Passage by the steamer leaving San Francisco August 10th has been engaged, and the commission will probably remain in Hawaii for six weeks or two

One Hundred Thousand Dollars has been appropriated to defray the expenses of the commission, and it will come accompanied by a full corps of stenographers and secretaries. The report will probably embody an exhaustive summary of the commercial, political and social conditions existing in Hawaii as well as the recommendations of the commission concerning proposed legislation

## THE FLAG RAISING.

President McKinley has directed Admiral Miller to proceed as soon as practicable to Honolula to represent the United States Navy, and Major-General E. S. Otis, to represent the army, in the ceremonies attending the hoisting of the American flag over Hawaii.

The Bennington and Philadelphia are under orders to proceed to Honolulu as soon as ready. The Bennington was expected to leave San Francisco on Thursday, July 14th, the

A CONTRACT OF THE PROPERTY OF NEWSPAPERARCHIVE®

The troops of the fourth expedition to Manila will probably remain in the city long enough to take part in the ceremonies. It is the wish of President McKinley that the ceremonies be elaborate and impressive.

## HONOLULU GARRISON.

President McKinley proposes to take no chance of a strap Spanish privateer turning up and levying tribute on Honolulu. The First Regiment of New York Volunteers have therefore been ordered to proceed forthwith to Honolulu, 1300 strong, under command of Colonel Thomas H. Barber, there to do garrison duty until the war is over.

The First New York is one of the crack volunteer regiments. It is one of the best organized and drilled bodies of men who hav gone to the fron, being composed of selected companies picked from the National Guard regiments of the entire State

of New York. Col. Barber is 50 years of age; graduated from West Point in 1867, served in the Regular Army for 18 years, when he resigned, but immediately became indentified with the National Guard of New York. He is a man of independent means, devoting himself largely to assisting in the management of charitable institutions. He is manager of the New York Hospital, also of the House of Refuge on Randalls' Island, a Trustee of the Greenwich Savings Bank, Secretary of the Samaritan Home for the aged and first Vice-President of the Society of First Aid to the Injured.

The position at Honolulu was much sought after and the selection of the First New York was largely due to the confidence of the government in Col. Barber's ability to meet any demands which may be made upon him in a situation where he must largely exercise the authority of a separate commander, unable to communicate with the superior officers.

Negotiations for transports to bring the first New York to Honolulu were in progress, and they will probably arrive within the next two weeks.

## ANNEXED.

The Joint Resolution annexing Hawaii passed the Senate at quarter past six on Wednesday, July 6th, after three weeks'

The engrossed copy was presented to the President for signature on the afternoon of Thursday, July 7th, and at three minutes past seven was signed by him, thereby completing the annexation of Hawaii.

The Washington Government state that Hawaii can pass any additional resolutions deemed proper, but that they do not consider such action essential, and will proceed to take possession whether the Hawaiian Legislature passes any more resolutions or not.

President McKinley considers that annexation have been consummated and will act accordingly.

## PRESS REPRESENTATIVES.

The Alameda brings several press representatives to write up the "flag raising" and the "new possessions" in general.

The San Francisco Call is represented by the well known writer Mrs. Alice Rix.

Miss Mabel Craft will describe the situation for the benefit of the readers of the San Francisco Chronicle.

Mr. Ralph W. W. Strong comes representing the "Scripps-Mc-Rae Newspaper League," a news syndicate representing some of the leading papers of America. Mr. Strong is the manager of the San Francisco bureau of the league. and is one of the the brightest writers on the association's staff.

Mr. A. Allen will record his impressions on behalf of the Overland Monthly.

AN INDUSTRIAL INSTITUTE.

Tribute Will Be Paid to the Memory of General Armstrong.

The first steps were taken yesterday afternoon towards the formation of an Industrial Institute. The subject has been given earnest thought by Col. Parker since his arrival, and since receiving the encouragement towards the promotion of agriculture in the public schools expressed by President Dole in his opening address before the Summer school. A preliminary committee of five on organization was appointed yesterday afternoon. This committee will report as soon as practicable. The committee is made up of Inspector-General Townsend, Mr. Thompson, of Oahu; Mr. Brodie, of Kauai; Mr. Kapohakimohewa, of Maul, and Mr. Bell, of Hawaii. It is Col. Parker's expressed desire to name the Institute the Gen. Armstrong Industrial Institute, in memory of a son of Hawaii, a man whom Col. Parker believes to have been one of the foremost industrial educators of modern times.

The Institute will be made up of teachers who will join for the purpose of taking an active interest in agri- Fort St. Above cultural work. It is the purpose to make each school a distributing point of plants and seeds. One of the objects is the consideration of the problem of co-ordinating agricultural work with regular school work. The Institute will also be the distributing point of manual training and agricultural propaganda.

Red Cross Benefit.

There was a mid-ocean benefit on the Alameda on the night of Monday, July 18, for the benefit of the Red Cross Society of Honolulu. Arthur Wilder, the new attorney from Yale, and Senator Henry Waterhouse arranged the function. The sum of \$60 was realized.

#### CLAD HAND.

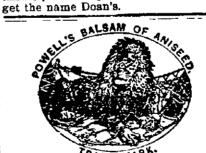

Portsmouth Extends a Hearty Welcome-Our Citizens show Appreciation in Public Utterances.

Lack of appreciation is not a failing of our citizens, and the advent of the was received "Little Conqueror," with the same display of enthusiasm which has spread all over the Union. Coming like a ray of sunshine to every sufferer, and raising burdens that many backs have borne for years is enough to awaken the public to praise, the like of which has never been heard in this locality. From every ward, from every street comes the same report. Failure is an unknown quantity, as far as the "Little Conqueror" is concerned, and success follows every foot-step. Right here at home the triumphs have been many and have set our people talking about the wond-rous workings. The following case in point should interest every reader, and

it is only one among thousands.

Mr. Asmasa Edmunds, 273 West Front street, Portsmouth, O., says: "I had complained for some time of a weak back and an aching pain just around the kidneys. I felt sure the kidneys caused it, because the secretions were off color. I read some ac counts about Doan's Backache Kidney Pil's being good for bad backs and I said to my wife that I believed that I would try them. I went down to Fisher & Streich's drug store and got a box. I could tell in a few days that they were doing me good, and this was so encouraging that I kept right on using the pills until a time came when my back ceased hurting me. It seems to me that this was a test of Doan's Backache Kidney Pills, in which they proved themselves warthy of the name and worthy of recommendation to others."

For sale by dealers, or will mailed by the Hollister Drug Co., Ltd., Honolulu general agents for the Islands; price 50c per box. Do not for-

Minister Hatch and Lorrin A. Thurston Home.

#### **FOLLOW RESULTS OF THEIR WORK**

Pleased to Be in the Islands Again. Affairs Here Will Continue the Same for Some Time.

The two citizens of Hawaii who have directly had more to do with bringing about Annexation, returned from the United States by the Oceanic S. S. Alameda. Minister Hatch and Lorrin A. Thurston are here now to stay. The Hawaiian Legation at Washington is practically an institution of the past. Jas. B. Castle, the secretary, has been home for some weeks. He departed so soon as there was positive assurance of favorable action by Congress. Minister Hatch remained at his post for consummation of the alliance. Special Commissioner Lorrin A. Thurston, after being in the heat of the campaign

FRANCIS M. HATCH. (Photo by Bell, Washington.)

night and day for a year and a haif, saw the happy ending of the long drawn and hard fought issue.

Messrs. Hatch and Thurston were the conspicuous men at the wharf when the Alameda came alongside. Greetings were shouted to them from shore and they were evidently much pleased to be in Hawaii nei again and to know that there was warmest appre-

ciation of their successful labors. Minister Hatch met with the President and Cabinet at the Executive building yesterday morning. The returned diplomatists left Washington the day after the joint resolution was signed by the chief executive of the United States. Consequently the news the travelers had additional to direct Washington knowledge was gathered great deal to report beyond what has large quantities at Pukoo. been published. Both Minister Hatch and Mr. Thurston confirmed the general belief or opinion that Governmental affairs would go on here very much as in the past for some time yet. The commission will be down next month. It will look over the ground and secure data. Return will then be made to the States and the enabling James McQueen Sucs His Mother act or organic act or whatever'special legislation there is to be for Hawaii will be presented to Congress through proper channels. Congress will not be in session again till December next unless convened by special call. in all likelihood the legislation for the new possession will not receive attention till January of 1900. It is expected that when the flag goes up the foreign ministers here will cease to act The consuls will remain.

A member of the Cabinet here went so far yesterday as to say that he believed the authorities of the Republic could proceed to borrow money under the loan acts of the late Legislature. There was also ventured the assumption that Mr. Dole and all the other officers of the present Government would continue in either precisely or relatively their same-present-pos.-

Minister Hatch was with the Hawalian Cabinet for quite a time yesterday forenoon and attended another session again in the afternoon. The Minister to the United States give his high official friends complete accounts of recent transactions at Washington. In the afternoon some letters for the States were prepared.

Both the Minister and the Commissioner propose returning to law practice at once. Mr. Thurston said he was simply delighted to be home again, though he had found the cetivity and interest of the contest most engrossing. Mr. Hatch still has his quiet, confident smile and is contained as ever. The two gentlemen were saluted everywhere yesterday when they appeared in town and had warm grasps of the hand for old friends.

#### IN KOHALA.

Social Life at Least is Active in

the Fertile District. KOHALA, July 17 .- Mrs. Henry Renton gave a lunch party on the 7th

to a number of friends and visitors.

Everyone had a nice time. The afternoon of Wednesday, the 6th. was very pleasantly spent at the house of Mrs. E. C. Bond.

Mrs. Howard Bryant is still in Kona, visiting her mother,

Mrs. R. Hind gave a lunch party on the 8th in honor of Mrs. Brobrant, of

Hopolulu.

NEWSPAPERARCHIVE®.

Foreign church, for the past few Sun-The July meeting of the King's Daughters was held at Mrs. John Hind's on Tuesday. Business matters

were discussed.

Mrs. C. S. Bond is still in the East, where she is rapidly recovering her Rev. V. H. Kitcat conducted the ser-

vices in the Episcopal church on Sunday. Mrs. Kitcat is here also.

Mrs. B. D. Bond gave a Mother Goose and Fancy Dress party on the 15th, the occasion being the fifty anniversary of her small daughter Alice. The little tots looked very sweet in the various costumes: Miss Alice Bond, Queen of Hearts: Howell Bond, Tom Tucker; Dorothy Brobrant, Mother Hubbard; Alfred Alexander, Old Man; Wilson Carter, King Cole; Leland Carter, Taffey; Sydney Fraser, Renton Hind, of H. M. S. Concord. 'not" a Boy in Blue; Henry Hind, Boy with Bow and Arrow; Oswald Hind, Pieman; Muriel Hind, Little Bo-Peep; Margaret Hind, milkmaid; Eva Hind, Mistress Mary, Leighton Hind, Sing a Song of Sixpence; James Hind, Page to King Cole; Emma Hughes, Little Golden Locks; Clarence Hughes, Henry Hughes, Jack the Giant Killer; Dorothy Kempster, Little Red Riding Hood; Alfred Kay, Prince Charming; Alex, Lindsay, Humpty Dumpty; Annabelle Low, Mother Hubbard; Elsie Meinecke, Bo-Peep; Albert McDougall, Walter McDougall,

Murray McKenzie, Olding, Baby Bunting; Kara Patton, Bo- Peep; Amy Patton, Mistress Mary; Ruth Renton, Miss Muffett; Mary Stuart Renton, Red Riding Hood; George Renton, Old King Cole; Lewis Renton. Prince Charming; Walter Renton, Lit-tle Boy who had a Little Gun; Allan Renton, One of Babes in the Wood; Leslie Luiloch, Goosey, Goosey, Gander; Pattie Tulloch, Miss Muffett; Fred Walker, Batchelor; Miss Julia Bond, Mother Goose; Rev. C. Hill, Goose. The children danced and played in the lanai: refreshments were served on the broad verandahs. About 100 people attended. Mrs. Bond was, as usual, a very charming hostess.

Mrs. John Hind entertained a few friends at dinner on the 14th.

The Kohala Literary Society met at the home of Mrs. B. D. Bond on Friday evening, the subject being "The Crusaders." Very excellent papers were read by Mrs. John Hind, Mrs. B. D. Bond, Rev. C. Hill and Dr. Shorey. Charades were cleverly acted and the evening ended in chorus singing.

#### HAWAIIAN COTTON.

Liverpool Offers Twice American Value for it.

W. B. Starkey, interested on Maui, has just received from Liverpool a quotation on Hawaiian Islands cotton. He submitted a sample, grown on his place without much care, direct to brokers. They replied that it was worth a fraction over sixteen cents a pound, against eight for the upland product of the United States. Had the sample been carefully matured, harvested and ginned the quotation would doubtless have been all of a fourth

Mr. Starkey is greatly encouraged by the cotton outlook and will immeat San Francisco. They had not a diately take steps to cultivate it in

> A gin and appliances have been ordered from England for the preparation of the staple for market. A press will be built here.

#### A FAMILY AFFAIR.

in Equity for an Accounting.

Yesterday James McQueen, a workman in Gus Schuman's shop, by his attorneys, W. A. Henshall and Charles Creighton, filed a bill in equity against his mother, Mrs. Frances E. Jackson, for an accounting and injunction. The papers were served about noon.

McQueen is the only son of respondent. It is alleged in the complaint that both together were entitled, after a certain trust, to all the estate of Z. Y. Squires. They did not wish to wait, so parted with their interests for the sum of \$15,000. Payment was made to Mrs. Jackson in Ewa, Honokaa and Makaweli sugar stock, which, it is claimed, has since increased in value to about the sum of \$25,000.

McQueen alleges that his mother has refused and still refuses to recognize his interest in the money, and holds all of the principal and dividends which have since accrued.

#### Birth Certificates.

The office of the Chinese bureau of the Department of Foreign Affairs was crowded all during business hours yesterday and has had a rush for several days. Mr. Girvin, the head clerk is one of the very busiest of Government employes. All the callers are accompanied by male children and "affidavit men." The purpoe of the visits is to secure certificates to the effect that the children presented were born in Hawaii. The Chinese trust thus to reserve American citizenship for their

#### Government Garnishment.

Auditor-General Laws says that the question of whether or no salaries of Government employes may be garnisheed under the new audit act must be settled by the Supreme Court. The official expects a test case to arise very soon. Garnishments that were pending in cases where a change of paymasters was made by the new law terminated as of June 30

#### Ookala Popular

It is stated that all of the \$200,000 of We have had the pleasure of hearing new Ookala plantation stock that was

ed and that local people will make mail. Hilo and Olaa have some first quite an inroad into the \$100,000 of class ball men and the contest with quite an inroad into the \$100,000 of class ball men and the contest with stock that it was planned to place in the Regiments must be of general in-San Francisco. It was a bit slow with terest. Ookala up to two or three days ago, when all at once there developed a sharp demand for the stock. Practical and reliable men say that the outlook for the plantation is excellent.

#### Regiments vs. Hilo.

By the Kinau yesterday Captain James Gorman of the Regiment baseball team received a challenge from the Hilo league to play a series of three games against a picked team challenge will be accepted by return never fails.

#### A Baseball Game.

The Mani teachers of the Summer school played a game of base ball with the other teachers attending the school at the Makiki grounds yesterday afternoon. A small audience witnessed the game. The latter team won by a score of 20 to 18. Another game will be played at 3:30 this afternoon.

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the tortures of itching piles. Yet from the big island in this city. The there is a cure. Doan's Ointment

A map of the channel that leads to Caimanera looks like a slice of rat-caten cheese, but Americans don't care for that if the holes are large enough to squeece the ships through. In the foreground is Fisherman Point, where our gallant marines was a victory and raised the flag.

WATERHOUSE'S

# Open and Twisted Link Trace Chains. Throw the responsibility

on us-

That's what our patrons can do. Just understand that every purchase made here is with the distinct understanding that it must give satisfaction. We want to know if it doesn't.

A lady told us the other day she got the idea ours was so exclusive a stock that the prices would be so high she couldn't trade here. That's wrong. We have exclusive styles—yes! But in point of fact our prices are LOWER than many—and as low as any store that carries reliable goods. It's the very cheap that is the very expensive.

We are always willing to exchange or refund money on goods bought of us which are not entirely satisfactory, when returned to us in good condition within a reasonable time after purchase, but with the distinct understanding that all such goods returned will have all charges paid.

When sending for samples, or for information, write plainly your name and postoffice. After receiving samples, and they prove satisfactory, order quickly, and if possible make two or three selections, marking them in the order of your choice. This will prevent the delay required in sending new samples which so often happens when goods to match the sample required are sold.

It sometimes unavoidably happens that goods ordered are out of stock, and in such cases we take the liberty of substituting what, in our judgment, is equally desirable, both in quality and price. If not satisfactory in this case, please return at our expense. In our Grocery, Crockery and Hardware departments our stock is thoroughly complete and the range of prices is all that can be desired.

The Commissioners are men who be commemorated in some very endurwill work well together, and will pres- ing form. It is due to the coming

#### THE JOINT RESOLUTION.

The joint resolution provides that "all the civil, judicial and military powers exercised by the officers of the present existing Government in said of the American democracy. The Islands shall be vested in such person statesmen who favored it were in ad-United States shall direct."

As the Islands were annexed on the 7th of this month, that is, thirteen slowly. Annexation was an interesting prevailing ideas of our countrymen on days ago, and the President has made question but not one of the hour. It no direction so far, the Govern- could wait. ment, strictly speaking, is operating very much like a steam engine with the steam cut off.

If the Commissions, which will arrive in due time, are dated July 7th any acts done by those receiving Commissions will be valid from that date, even if the Commissions were not in possession. The resolution does not recognize our Constitution, but does The President has approved of the recognize and keeps in force our muni-

There may arise some light embarrassment, hereafter, owing to the absence of a clause in the joint resolution providing for the hiatus, or interval of time mentioned above. Possibly the force of the municipal laws may cure INJUSTICE TO CERTAIN JAP. any defects.

It would have been an act of gross indignity to our lawyers, if the joint resolution had been drawn without a flaw in it. As the profession thrives mainly, like the other two professions, could not do otherwise than watch that to the ground.

The resolution provides that the The record of the acts, and motives office of Bresident of Hawaii shall be of these men should be clearly and held by a person appointed by Presiamply preserved in our local history, dent McKinley. But the President of in the shape of personal narrative, Hawaii, under our Constitution, has powers which are inconsistent with a tory. What they have done for good territorial form of government. It will probably he held that the appointee shall exercise, until Congress enacts suitable laws, only powers which are consistent with the Constitution of the United States.

The provisions of the resolution are necessarily vague. But some way will be found to carry on the Government without making any serious trouble

#### PAST HISTORY.

A chapter in the history of American political literature has now closed, with the passage of the joint resolution of annexation This literature covered a period beginning with the 17th of January, 1893, and ending with | tion. the 7th of July, 1898 Some day a the growth of ideas in the American Their work and its chief value has mind on the special subject of Habeen in slowly bringing the people of waiian annexation. A source of inforthe United States to a better knowl- mation on public matters, of the highedge of the needs of their own great est value, is the current opinions of Nation, and the "necessity that is not the Press A few years ago, it was chosen but chooses" of casting off the a matter of great patience and labor than they could through the agent. swaddling bands of tradition fastened to obtain these opinions The creation of the bureaus of Press clippings, how-While Mr Hatch has been owing ever, brought together with rapidity, to the traditional decorum of diploma- and in the most serviceable form, the cipally at the suggestion of the plan-

The clipping of the papers now become would probably find judgment against the valuable evidences of the growth Hawaii. We shall see. of an idea.

It is now safe to say, that so far as act itself and the events that led up we have been able to judge from imto it, only prove the propositions that perfect data, the majority of news-Mr. Thurston has proclaimed from the papers have been against annexation. The Kansas City Journal recently stated that it stood alone, west of the but as well of the community behind than he to say to the people of our Mississippi river, in persistently advocating annexation. This statement is not true, however. But out of the 7,000 daily and weekly papers issued of the United States in commenting upon the Mainland, the majority were

> From the time the Commissioners reached Washington in 1893, until the passage of the joint resolution, the number of Senators favoring annexation decreased rather than increased.

> The explanation may now be safely given. Annexation was a policy in advance of the average political thought vance of the people. While annexation was inevitable in the end, the average thought of the people moved

What reason and speech could not do, was done with powder and ball at Manila. The question at once became one of the hour, and was settled at once.

Spanish ignorance, and cruelty moved the hands of the clock forward. The trembling fingers of the successor of Ferdinand and Isabella blindly reachcipal laws, not inconsistent with the ed out and set the tropical jewel of Hawaii on the brow of America, before American democracy was ready to do it. The hands of the clock will never be turned backward. The hand that fixed the jewel cannot remove it.

## ANESE.

Minister Cooper naturally resents the criticism of the Advertiser upon the conduct of the Government in cruelly turning back 1,150 Japanese immigrants last year. As the United States will now pay the penalty, if one is adjudged by arbitration, the matter is one that is now of historical interest with a significant comment in it on the morals of a Nation.

Minister Cooper does not state the case frankly or correctly in his interview contained in the Star.

The Governments of Japan and Hawaii entered into a Convention (in force and effect a treaty) in 1886, which embraced the emigration of the subjects of the Japanese Emperor to Hawaii, not only those who had emigrated, but "those who may thereafter emigrate thither."

Hawaii agreed to keep an agent (Article III) in Yokohama, who should ask for laborers when they were needed, and Japan agreed to furnish them, through an agent of its own All that Hawaii had to do was to obey the rule laid down in the Convention, and she had an absolute grip over emigrant laborers for the future. There could be no emigration excepting through the machinery provided by the Conven-

That Convention was a living, legal, and binding instrument until annexation terminated it last week with all

other treaties whatsoever. But Hawaii deliberately and wilfully refused to keep an agent in Yokohama; she refused to comply with this treaty, because her planters found a cheaper way of getting immigrants As Mr Cooper says in his interview. "The immigration of Japanese under the Convention was abandoned printic etiquette prevented from engaging printed views of public men, in every ters. This is perfectly true. But the Convention was left in full force, and never terminated, as it might have been, on six months' notice. Because the political and social world of Wash- ers, on the Mainland, regarding annex- the planters suggested it, the Governington that he has been excelled by ation, through many hundreds of these ment stopped the agency and so no diplomat in his marier of giving clippings. These are to be preserved abandoned a plan for absolutely controlling all immigration

But the Convention remained in full force all the time and the Governavoided public life for many years and In looking over the clippings see it ment by simply sending an agent to only entered it when it became his ed since the war with Spain was de Japan, as it agreed to do could have duty and responsibility to share the clared and the naval action near Ma | prevented an "invasion" or the dedangers and the labor of reconstruct nila it is surprising to notice the sud parture of a lot of ignorant and industerrible disappointment

and admiration displayed at his sim- describing a past historical incident. hand, has believed that the Arbitrator

We have sincerely believed in firmly establishing American civilization here, but have believed that it could be done, while doing justice to all. The error, if there has been one, is

not wholly that of the Government, the Government.

The language we use is much less severe than that of the Supreme Court on the action of Congress in the "Chinese Exclusion Act."

Regarding the dispute about Japcase, however, involves so many distinct points, as the lawyers say, it Tribune correspondent. would be difficult to present it in the brief form that would tempt the layman to read it. The public will wait for the results of arbitration or settlement, just as it accepts the verdict of

a jury. Aside from the general policy of admitting or excluding the Japanese, although we have opposed their edmission, we formed the opinon, after much careful consideration of the facts and the law, at the time the immigrants were refused admittance, that our Government was in error about it, and that it would be beaten in the end before any international tribunal. We repeated our opinion in this paper that our Government and the community that proudly endorsed its action might be as much disappointed before an Arbitrator, as the United States were disappointed in the arbitration regarding the Bering sea. We also believed, having personally examined the whole subject of immigration in Japan, during the year 1895, that it was perfectly easy to stop the Japanese "invasion," without causing any suffering or distress to any human being.

Our statement that the immigrants were treated cruelly and unjustly, is only, an opinion. The Arbitrator will in due time, say whether we are correct or not. If he decides that the Japanese claim is unfounded, we must take the usual medicine.

In this matter the Advertiser has kept in mind that the Japanese outnumbered, in males, all of the other races here, and that their children born here, within a few years, vastly outnumbered the Anglo-Saxon children born here, and that it was the height of folly to stir up racial hatred as it has been studiously done.

But the final settlement of the case will show whether our construction of the law was or was not, good. And we can frankly say that it would greatly please us to be told on final authority that we are in the wrong.

There is no pleasure or satisfaction in declaring that our own officials are in error.

## THE GERMANS AT MANILA.

The despatches from Manila intimate an improper interference by the German navy, in the interests of the Spanish, at Subig bay. It is almost certain that a correct report of the alleged interference has not been made. The neutrality of Germany, after many conflicting rumors about it, has been at last declared to be strict and just. The German side of the story about interference has not been received. Any aid given to the Spaniards, by repressing the insurgents in Subig bay, would be a direct act of war upon the United States The German officers are carefully educated in the principles and practice of international law, much more so than the war correspondents Moreover they have as little respect for the morals and humanity of the insurgents as our own men have It will probably appear that the action of the German vessel was most praiseworthy, and properly prevented a butchery. When the American warship appeared, the German vessel withdrew and passed the affair over to Admiral Dewey

The Bishop of Honolulu has engaged in a panful discussion with the Advertiser in a letter published in one of the local papers, on the subject of dress. The far reaching consequences, in the world beyond the grave, of changing the fashion of dress, can only be seriously considered, when the present political excitement has abated somewhat. We will then, after the flag is up consider this vital question

The Red Cross Society must be congratulated on the immediate acknowl-

Spaniards Not Suspected

#### What Late Capt. Gridley Thought of Philippines.

Poor Climate-Coaling Station Only Use-A Captured Transport. Brave Men All in Fight.

Two days before the death of Captain Gridley, while he was on the Copanese immigration, we frankly admit tie and bound for home, broken down that there are two sides to it. The in health from the ravages of sickness, he talked at length to a New York

> He talked freely of the climate of the Philippines and of his opinion of the strategic value of the islands to the United States. He also told of the entrance into Manila harbor on that victorious first of May. He spoke Islands, was still in Hawaiian waters as follows: "I feel sorry for those when the news of Annexation came boys they are sending out to Manila. They are in more danger from the scourges of the country than from Spanish bullets. The heat is simply

CAPT. GRIDLEY.

damnable, and they are sure to sicken. The fleet has been singularly free from illness, but I fear it will come. I have no desire to criticise any plan of the Government or to stand against the wishes of the people, but I see nothing in those islands for us, except a coaling station. Not one in ten of our best men could survive there. However, I suppose we must have troops there for a time, but the sun, and not the Spaniard, is their enemy. "I do not believe Manila will be

bombarded unless the Spanish fire on us. The city is absolutely blockaded rear. The insurgents are attending to pilgrimages to Washington and likethat. They got two thousand stands mittee when called upon. of arms themselves recently. Admiral Dewey gave them five hundred, and and Gen. Anderson's corps had been up they also got part of the munitions of to the second week of this month "pilwar taken at Cavite. They have a ikia" for fresh meat. A proper cargo sort of headquarters there now. There trails and while freezing out the Spanhave been few events since the defeat of Spaniards. Beef has gone to \$1.50 a pound, and other staples are equally

"The Baltimore and the captured rerenue steamer Callao were sent to Iloilo to try to rescue the captured American ship Saranac, and to attend to the gunboat Elcano. The latter was feeling about it. one of the small warships not at Manila. There are some fourteen small ones left. They are scattered about the islands, and include the Cebu, which is dismantled, above the bridge were laid solidly a long time ago and near Manila.

"The captured transport Manila will probably be sent to San Francisco. She is a fine 1,100-ton ship, and her cargo will be made up of what was captured. Hundreds of new Mauser rifles and all kinds of supplies had just reached Manila before we got there, and they all fell into our hands with the arsenal. got six torpedoes and other supplies for the Olympia, and a large quantity rule as fond of dancing and light enof stuff that was useless was destroyed joyments as the commissioned men of by the fleet. We have, however, devoted most of our time to the blockade, and not a single vessel got in

"I had no thought of mines or torpedoes, and we were in the van. We went up close to Manila, and when we ernment here has not even yet any offound the fleet was not there circled ficial advice of the adoption by Conaround to Cavite, where we knew they would be We engaged them at once. I was with Farragut at Mobile Bay, and did not expect to see anything of ident Dole and his colleagues of the the kind again. THE PASSING HOUR.

The town of Soledad, Calif., was all but entirely destroyed by a fire on the 10th inst. It is too bad that they saved

the name. It was the Hawaiian Nightingale, our own Annis Montague Turner, who sang "The Star Spangled Banner" for the big Fall of Bastile celebration at

San Francisco. Klondike reports that appear to be reliable are to the effect that the production of gold is upholding the most extravagant ideas of the natural wealth of the country.

A week at sea cannot freshen news stale at date of shipment. This fact is being sadly felt by a local publication that has been importing back number boilerplate "extras." A glorious record is being made by

the Red Cross Society here. It is gratifying to note that it is receiving most cordially the hearty and substantial support that its purposes invite. In the latest number of the Hilo

Tribune received here assurance is confidently given that Annexation need not be expected. Here's hoping that the Tribune hul survives the blow.

Capt. Whiting the mascot of the and had the pleasure of knowing about it before proceeding on to Manila with his ship.

Close scanning of Admiral Dewey's reports and other official statements do not bear out the belief or thought or expression that there is tangible sign of German interference in the Philippines.

These two comprehensive and philosophical sentences have been described as "a wise remark:" If you want a long war, prepare for a short one. If you want a short war, prepare for a

long one. It is a rather grim thing to bring forward, but the British Consul who has just left Havana reported that while hundreds were dying daily of starvation at that place, he had not

noticed any unusual distress. The flag raising is about the most difficult thing to "program" that the local arrangement men have yet encountered. It is quite safe to predict, however, that the mighty affair will be carried out "decently and in order."

The commission that has been appointed to draft the enabling act for the territory of Hawaii is being beautifully abused in one of the political back yards here. This is a measure of assurance that the commission is all it should be.

The native will have a number of glaring consolations under the new regime. One will be that he can revel in as murky an understanding of several of the continuous "issues of the day" as a quite good many of his fellow voters from abroad.

It was an observable thing in the Western territories that the gentlemen aspiring to local appointments were required to make frequent and expensive

The men of Admiral Dewey's fleet beef carcasses.

It is hoped that all the transport nassengers have received as good an impression as did the Oregon contingent. Such correspondence as was sent from here to the Portland paper is eloquent and effective advertising with a most striking air of originality and

It is not anticipated that there will be changes of an extremely radical nature in the methods of administration of government here for the "new ord-The good American foundations the superstructure will require but

slight modifications. The Boys in Blue editions of this paper mailed free for soldiers of the United States en route to Manila, have given Hawaii wider and better advertisement than anything ever sent from the Islands. The Gazette Company has footed the bills, but feels amply repaid on noting some of the replies.

A garrison here will rather enliven society. The army officers are as a the navy. It is now in order, by the way, to locate and name the fort. Building a permanent garrison will result in the distribution locally of a few hundreds of thousands of dollars.

It might be remarked that the Gov-Kinley of the Joint Resolution bringing these Islands within the territorial jurisdiction of the United States. Pres-

Up to the 10th of July the United States had paid about \$100,000,000 cash "The Admiral handled the fleet to from the treasury on account of the war with Spain. The war expenditure is now averaging \$1,000 000 a day and with increased forces in the field will people The first bond issue of \$200,000 000 has been subscribed several times over and will be distributed

## American Episcopal for Hawaii.

#### TAKING UP AN OLD PROPOSAL

This Will Come Under the New Dispensation-Mission of Rev. Alex. Mackintosh.

It is expected that under the new era there will be new church life here. The Central Union begins the coming decade or rather period with a new pastor. The Rev. Mr. Kincald For this reason she will go to the will be here next month. The Meth-country place of Mr. Samuel Parker, odist Episcopal church of this city is in Mana, Hawaii, early in August for now attached to the California jurisdiction. A fond anticipation of many is that there will be more churches with encouragement of patronage from the United States. Several sects in the mother country have been waiting again. for annexation only to invest the Islands. ,

An early change in which there is uncommon interest is looked for in in number respectively under the Bishop of Honolulu, who has his appointment from England, and Rev. Alex. Mackintosh, who is also responsible to the authorities in England. There has for a long time here been a growing sentiment in favor of the American form of the Episcopal church. It is not infrequently that marriages have been solemnized from the ritual of the American service or prayer book. The Rev. Alex. Mackintosh is now

well on his way to California, having left by the Oceanic S. S. Mariposa. It is well understood here that the purpose of his trip is very largely to continue former negotiations with a view to establishing here the American tosh will in all likelihood soon again church in the United States will be Wm. R. Castle, the Misses Gurney and consulted by Rev. Mr. Mackintosh upon the prospects here for the American church. There are those who are certain that the outcome will be the plant- Batchelor and wife, M. R. Counter and ing here of the American forms, with others, of Honolulu. These friends Rev. Mr. Mackintosh as the represen-tative of the American Bishops. Just bandmaster at Victoria. how this will concern the Bishop of Honolulu, the Rt. Rev. Alfred Willis, depends entirely upon himself.

Upon this there was correspondence many years ago and letters have been passed or exchanged quite recently. One of the advocates over the States for the American church here is a very prominent Eastern gentleman who spent the greater part of last year in Honolulu. The Rev. Mr. Mackintosh is a liberal man of broad views and progressive ideas and has always been in touch with the American sentiment here to the extent even of being part of it, in acts and expressions. He came to the country many years ago and than himself there is no more popular nor better liked man in the Islands.

This subject being broached last evening to the Bishop of Panopolis, the Catholic head here, there was brought out the statement that annexation would not force any change or make any difference for some time at least. There will be no marked de- T. V. King and H. Ludloff, scratch; T. parture from the present status except-ing as it is brought about by natural yards; F. Williams, 40 yards; A. Robgrowth. The Bishop remarked that there had for a long time been talk of a parish here separate from the present Cathedral congregations, where all nationalities mix and where the Natives and Portuguese predominate. The Americans have been suggesting this and have even asked for it. It is likely that in the near future a priest will be assigned or imported to have charge of an American parish.

The Rev. Alex. Mackintosh will return to Honolulu in about six weeks.

- Cable. NEW YORK, July 10.-The Washington correspondent of the Herald sends the following At the next sesters that demand attention will be the ifornia consideration of the proposed submarine cable from the United States to Hawaii Several bills to charter cable companies are now pending before the Foreign Relations Committee of the Senate and the Interstate and Foreign Commerce Committee of the House, and efforts will be made to get one

through at the earliest moment.
These bilis propose to give subsidies in one form or another, generally by the Government guaranteeing the company a certain amount each year for the transmission of messages

#### To Visit Home.

Charles L Brown, of Hollister & Co, sailed by the Alameda for a visit to his home in Germany, after an absence of twenty-nine years. There is a flavor of romance in the trip Mr. Brown left home when a mere boy By some changes of residence he lost the address of his relatives and for over twenty years did not hear a word from them. In some way a sister in her just before Christman. Corres- in the capital

pondence was reopened and Mr. Brown now goes to meet his folks, whom he has thought were dead a long

#### PRINCESS WILL REMAIN.

She Will Go to Mana for a Short Rest-May Visit States.

It was announced in an afternoon paper yesterday that the Princess Kaiulani expected soon to leave hawaii forever to take up her permanent resdence in England.

The Advertiser was informed by Hon. A. S. Cleghorn last evening that the Princess has no such intentions. whatever, and that the statement was wholly unauthorized. The Princess will remain in Hawali. Her interests are all here. She has a deep love for the land of her birth, and a sincere affection for her people.

For several months past the Princess has been in very poor health and feels the need of a change of climate. stay of perhaps two months. Should her health then be restored she will return to Honolulu to remain, otherwise she will go for a short rest to the United States, where she has many friends. It is possible that some time she may visit England

The consummation of annexation has not induced the Princess to make these plans. She has had them in mind for some time, but has delayed her departure for Mana to await the connection with the congregations of arrival of her aunt, ex-Queen Liluoka-St. Andrew's Cathedral. These are two lani, whom she has seen but once, and then for a few hours only, in nearly ten years.

#### BANDMASTER WATSON.

His Funeral Largely Attended By New Found Friends.

The funeral of Bandmaster Charles H. Watson, of the Thirteenth Minnesota Regiment, which took place at 10:30 o'clock yesterday morning, was quite largely attended and was very impressive. Chaplain Thompson, of the Mohican, conducted the services. The pall bearers were also from the Mohican. A section of regulars was sent by Colonel Fisher to act as an escort of honor.

The floral tributes were very pretty. Among the pieces were remembrances Episcopal church. Upon former visits from Mrs. Colonel Chas. McC. Reeve, to the coast, Rev. Mr. Mackintosh has heen the guest of Bishop Nichols, the Mrs. H. M. Sewall, Red Cross Society. head of the Episcopal church in the Mrs. W. W. Hall, Mrs. Widdifield, State of California. Rev. ## Lectures and Lessons Before the Teachers.

#### SPEAKERS AND THEIR SUBJECTS

Col. Parker on Sound-Many Questions-Pronunciation and Grammar-Evening Talk.

(From Wednesday's Daily.)

were quite informal. They had to deal with articulation, particularly in sand. In them the children would speaking. When the subject of the Hawanan language sounds was reached a large number of those present entered the discussion. Questions came freely, and a number of experts in the The best men of the world owe their language were asked to explain the sounds. Professor M. M. Scott, C H Dickey, J. F. Scott, Inspector General Townsend and others took an active interest in the discussion.

Beginnig the discussion Col. Parker said that every teacher should be skillful in the mechanism of sound, both in making them and in determining them. Sounds should be made easily, without tension. Taking the letters of the alphabet, they were given as the row of expression, sounded and explained The class was required to follow the sounding.

During the lesson the subject of Hawaiian sounds and pronunciations came up Professor Scott was asked for the correct pronunciation of the word "Hawan"-the same old question of whether it is a "v" or "w." Following that Col Parker remarked that the Hawaiian child learned sixteen sounds at school. After that, in studying English, it was recessary to learn thirty more.

To teach the sounds the speaker suggested a chart representing them. To teach or impart sounds correctly it was necessary to know them. To know them one must hear them. First, master the sounds; then become able to use them easily. Have a little exercise with the children daily.

The speaker could not sanct on the teaching of words arranged phonetically as a means of imparting sounds. Mrs. Parker's subject was "Nature Study in Its Relation to Oral Read-Mechanical reading is one of the worst of habits. The speaker referred at some length to the study of a subject by the use of relative subjects and books of literature bearing thereon. Speaking of teaching a Hawalian child Mrs Parker said that she would not attempt to make one read until he understood English, understood the thought.

She would wait even ten years first. A good reader has the power of concentration The reason so many find it difficult to study is that they have disassociated the thought and word. In expression the thought is intensified. Every good teacher should be a good

reader. The speaker had great faith in human nature The general inclination was toward God and good Men went to the saloons for the lack of better places to go.

In answer to a question Mrs. Parker said there was no comparison in cities between children who come into the of children of the different grades perschools from the kindergarten and those who had not attended it The former were advanced, keen and ready to go to work, the others were dull just as good work as that of the Chi-

Col Parker resumed his talk He said English was a grammarless language It was a language that shaped itself through usage and was still doing so Let the necessity grow out of the usage Of all the messes in school work the grammar is the worst. For the first few years of the work leave grammar alone He said that when he comes to Hawaii next October he hopes limit quantity. The housewife canto find no technical grammar in the

Mr Townsend remarked that technical grammar was not generally used in the Islands to which Col Parker added "The Lord be praised. We are thankful for small blessings. That heats Chicago A 1 id should not write unless there something to write about concluded " speaker

In the Sunday dramatic instinct is strong. She sa'd school the child is rewarded for study- it is dangerous to repress the rythm, ing the story of love. It is the same in the desire to give expression to mothe schools. There the child is led to tion. Mrs. Parker gave suggestions feast his eyes on the glittering bauble how to conduct a literature lesson. She of per cent. It is not learning he is said the trouble with most teachers is after, but per cent

Ambition is to do more good today ture. than you did yesterday. Other ambition leads to selfishness.

The old way to treat a child was flogging Then came bribery. Now is per cents. Why do we mark? Because there must be some purpose before the pupil you say. Yes, the child must have something ahead that will move it; and selfishness will accomplish that quicker than any one thing else This lack of a sound purpose shows a failure of our whole system. We must get out of it. A higher idea

must be aroused. Every child is a born worker. In The lectures of Col and Mrs. Parker the kitchen, the yard or elsewhere, in Progress hall yesterday morning however young, they want to help. If I had my way every yard in the world would be convered over with white build houses, castles and mudhouses. Their natural inclination to do something, to make something, would find full expression. Through it the mind, the soul would be developed and grow. education to the farm and work shop. The aristocracy of the future will be an aristocracy of workers. I am glad to see manual training in the schools of Hawaii. It is the beginning of the foundation of the prosperity of the future.

There is music in the soul of every child. Every child must be taught to sing There is a consonance with nature in it. The brook babbles, birds sing, and the sea rolls in a rythmic swell. The child is a part of the great world of music, moves in rythm, and must sing. Rythm pervades everything, even the movements of the body. Calesthenics are necessary. There the consonance is again reached. Music is the most practical thing in all the world Tell a child "Sing at

your work." Heretofore we have gone on by tradition without looking at the child There was a time when we thought a child was born in wickedness and must go through certain processes. We now know the power of the child in the early days of constructive activity. But we do not yet appreciate the possibilities of the child. We must go further The New Testament contains the most complete doctrine of education of any book in the world. For three years Christ kept his little class together Look at the teaching. Look at the sermon on the Mount.

## ARITHMETIC

## Col. Parker Says Function is Measurement.

The Beauty of Literature—Lincoln and Emerson Were Types of True Americans.

(From Thursday's Daily) Miss Allen will lecture on "Childhood" at 8 o'clock tonight in Progress Hall. The public is invited to be pres-

Yesterday morning Col. Parker explained the exhibit which he brought from Chicago. It is now in position in of these liners, will commence the Progress Hall and represents the work place. formed without the aid of teachers He said that the Hawalian pupils could do cago children

In the regular lecture Col Parker asked what is the function of arithmetic It enters into all life, it is an essential to progress in all life. Astrology changed to astronomy, alchemy changed to chemistry by its use. Numbers have but one function, that is measurement. Numbers are used to not bake a loaf of bread without arithmetic farm work cannot be carried on, almost no duty of life. Little can be done in life unless distance is known, area, volume, weight, force, time, value and limitation of single things. Most work in arithmetic has nothing to do with quantity. All arithmetic must be done by measuring. In geography history botany all contain infinite problems in numbering. What could be learned of physics without numbering. When it is thight in an isolated form . Iccomes a doad

#### EMINENT DOMAIN.

#### It Rests Only With Companies Privileged.

By unanimous decision of the Supreme Court the Hawalian Commercial Company comes out winner in one of its several legal contests with the Kahunui Railway Company. The finding of Judge Stanley, of the Circuit Court is reversed. He had held that the railway act of '78 was a general statute and gave the right of eminent domain to common carrier and like corporations. The Supreme Court says that the right of eminent domain can be exercised only by such corporations as have an express contract to that effect with the Government through the Minister of Interior.

This case arose from the desire of the Kahului Company to condemn certain water front land on Maui owned by or under the control of the Hawaiian Commercial Company.

The Supreme Court decision is by Justices Frear and Whiting and W. R. Castle, the latter sitting for the Chief Justice, disqualified.

#### MORE WATER FRONT. A3Long Wharf Strip Acquired By

Government. The Government now holds title, through successful condemnation proceedings, to the Youmans estate water front land around Lime Kiln point on the town side of the harbor and up Nuuanu stream to a point a short distance above the King street bridge. Settlements for eleven-twelfths of the land were made yesterday by Attorney-General Smith for the Republic of Hawali with W. R. Castle for Caroline Newton Clarke of Cleveland, O., and with General Hartwell for Geo. H. Newton of Richmond, Conn. The remaining one-twelfth is owned by a minor residing abroad. The paper title for this fraction may arrive in the mail today. The price paid by the Government for the whole was \$21,780

Took American Space.

Robt Shingle, Hawaii's commissioner to the Trans-Mississippi Exposition at Omaha, distinguished himself soon after reaching the show town of the year. Immediately upon receipt of news of the passage of the annexation resolution by the Senate, Mr. Shingle waited upon the exposition directors and pointed out the unfitness of having the Island display in the International building. The managers acquiesced at once and gave Hawaii a full state space in one of the strictly American buildings. A. L. C. (Jack) Atkinson says an excellent location has been secured and more space than at first promised.

#### New Trans-Pacific Liners.

The annexation of Hawali may result in the turning back to the White Star line of the Belgic, Gaelic, Coptic and Doric. In this case the Pacific Mail Steamship Company, charterers

#### Mrs. Sumper Dead.

Mrs Ninito Sumner died at her residence on Beretania street at 2:30 o'clock yesterday morning of heart failure. She was 60 years of age. Mrs. Sumner was a native of Tahiti and was connected with the royal family eral will take place from the Catholic both sides of present main road. Cathedral at 10 a. m today.

#### The Morning Star.

The Missionary packet Morning Star has been ordered to proceed at once from Honolulu to San Francisco. She will leave early next week. The Starwill wait there until next February, when she will sail via Honolulu for a quick trip to the Carolines

Executor of the Will of E eazer Laz-Deted, Honolin July 8 1898

OF THE WAIHEE SUGAR COM-

To all to whom these Presents shall Come: I, James A. King, Minister of the Interior of the Republic of Hawail, send Greeting:

Whereas, on the 17th day of February, A. D. 1898, the Walhes Sugar Company, a corporation existing under the laws of the Hawaiian Islands, presented to the Minister of the Interior, a petition together with a Certificate setting forth that at a meeting of its Stockholders, called for that purpose, it was decided by a unanimous vote of all the stock and stockholders to dissolve and dis-incorporate the said Corthe Interior.

And whereas notice was thereafter caused to be published in the Hawaiian and English languages for sixty days in the semi-weekly "Hawaiian Gazette" and the "Nupepa Kuokoa," published in the City of Honolulu, that is to say from the 10th day of May to the 12th day of July, 1898, in the semi-weekly "Hawaiian Gazette" and from the 13th day of May to the 15th day of July 1898, in the "Nupepa Kuokoa," and affidavits of the publication whereof have been presented to this office and are annexed to the original Petition and Certificate on file.

And Whereas, I am satisfied that the vote therein certified was taken and I am further satisfied that all claims against the said Waihee Sugar Company have been paid and discharged.

Now Therefore Know Ye, That in consideration of the premises and no reason to the contrary appearing I do here declare that the said Corporation, the Waihae Sugar Company, is hereby dissolved and that the surrender of the Charter, dated June 24th, A. D. 1879, is hereby accepted on behalf of the Hawaiian Government.

Given under my hand and the seal of the Department of the Interior this 18th day of July A. D. 1898. J. A. KING, (Signed) Minister of the Interior. 1987-1mo

## TOO LITTLE

#### Strong Argument on an Important School Point.

Should Be More Than Meager Livelihood in the Profession-Order of Ability Required.

The great truths touching the education of children and so ably presented by Colonel Parker at the Summer School in his talks to large and interested audiences are everywhere not only surely working their way into the minds of those teachers who regard it a duty to grow, but are being in a measure grasped by many people in this and other lands.

One of the most serious problems, confronting us as we stand ready to enter the open door of the twentieth century, is: What kind of an education and how much ought to be attempted in the schools?

The quality and quantity now provided do not meet the requirements and fall far short of laying a foundation which will equip the future citizen for the duties and activities of

There is a wide-spread demand that all school work be made more intensely useful and interesting; that the dead traditional school accretions of the great past, which have come to us largely by inheritance, must go; that the terrible wastage of time and energy of the children, the many years they are in school on work which does not assist them to become self-supporting intelligent men and women, must go.

Public opinion would have the common school indeed "The bulwark of the Nation." It would begin reforming, proceed reforming and go on reforming forever. It would spare no expense in erecting commodious up-todate school houses, with interior embellishments of an historical nature, and surrounded by an extended and attractive ground. It would have the public school a notable institution, a leading factor in molding its pupils physically, intellectually and morally, thus insuring their becoming better citizens.

This growing opinion would have experienced, cultured, liberally-educated, successful instructors in the schools leaders in social affairs and ever ready eat and work well as ever." by word and deed to be a pillar of strength in all worthy works, a real power in their respective communities. With this pressing demand for a fuller realization of the foregoing high expectation and qualifications, as well as many more, yet this same public sentiment views with pronounced disfavor any movement looking to encouraging women will see it and read it. those having a high order of natural ability to enter the profession of teachtent, by liberally compensating the tried and competent ones, so as to enable them to acquire at least a small tremely low salaries will be in no degree possible. Teachers handicapped region. by salaries which provide simply for the actual necessities of a common the real purpose of a school education. C. F. TRUE.

Honolulu, July 18, 1898.

#### Senator Waterhouse.

Senator Henry Waterhouse and his young son, Albert, returned by the Alameda from a visit to the States. The Senator was in Washington during the debate on the Hawaiian question and was present when the vote ton that night. Mr. Waterhouse has real relief. much to say of the earnestness of President McKinley in the Annexation matter, as well as the work of Minister Hatch and Commissioner Thurston.

REASONS WHY CHAMBERLAIN'S COLIC, CHOLERA AND DIAR-RHOEA REMEDY IS THE BEST.

1. Because if affords almost instant relief in case of pain in the stomach, colic and cholers morbus.

Because it is the only remedy that never fails in the most severe

cases of dysentery and diarrhosa. 3. Because it is the only remedy that will cure chronic diarrhoea.

 Because it is the only remedy that will prevent bilious colic. Because it is the only remedy that

will cure epidemical dysentery. Because it is the only remady that can always be depended upon in

cases of cholera infantum. 7. Because it is the most prompt and most reliable medicine in use for bowel complaints.

8. Because it produces no bad re-

Because it is pleasant and safe to take.

10. Because it has saved the lives of more people than any other medi-

cine in the world.

RED CROSS ANNEXED.

American National Society Takes in the Local Organization.

The local Red Cross Society is now a branch and part of the American National Red Cross. When the Soclety was formed Mrs. Dr. Day, the secretary, addressed a letter to headquarters inquiring if it might be admitted as a branch organization. What followed seems to indicate that the reception was most cordial. The Red Cross did not wait for the mail, but flashed a telegram across the continent to inform the Honolulu ladies that their organization would be admitted. This is a copy of the message, received yesterday:

New York, July 9th, 1898. Emily Foster Day, Sec. Red Cross So-

'Honolulu, H. I. Mail, San Francisco,

"Letter June fourteenth received. Answered by mail. We welcome your society cordially.

BARTON, 'American National Red Cross, New

The local Society feels jubilant over the reception, as indicated by the dispatch. It now has a perfect right to the name adopted and full authority to carry on its work in the elmost universal way.

During the absence of N. S. Sachs from the Islands Jas. Wakefield will act for hum under full power of at-

IN A THURD CLASS CARRIAGE.

Early in February of this year (1894) I was travelling in a third class carriage in the neighbourhood of Glasgow. At a station two women entered the compartment in which I was scat-One was a girl, gaudily dressed; the other a typical working woman. She had no hat or bonnet, and wore a stuff petticoat, with a shawl: wrapped round her. She was the picture of rude, robust health.

The girl asked how her companion was, remarking that she had heard she had been far from well.

'Deed, but I was," responded the elder woman, "I thocht I was at deith's

"Ah say, what like was the matter wi' ye?"

"I cud dae nae work; if I tried to wash the floor I got siccin a heart beatin', and my stomach fair turned at the sicht o' food. I went to three doctors, one after anither, and they gae me bottles and bottles, but it didna help me ana till a frien' tellt me to try Mother Siegel's Syrup. Wuman, in a week I was better and fin I had ta'en at all points. It would have them it a month I was a' richt and could o

> Then they went on talking of other subjects. Go where one may he is likely to hear some good said about Mother Siegel and what is done by her famous medicine. Sometimes it is in the form of a bit of passing talk like the one quoted above; and again it takes the shape of letters, fragrant with gratitude for health regained. Here is one. We hope many suffering

I was constantly spitting up a clear fluid like water, and I heaved and strained a good deal. At the pit of my stomach there was a gnawing feelcompetence for old age which under ing, and there seemed to be a hard the prevailing universal scale of ex- lump formed in my abdomen. In any case I suffered much from pain in that

"My breathing got to be very bad, and I wheezed as if the windpipe were clogged and stopped up. I had a hackplain existence are mentally incapaci- ing cough which gave me but little tated for delving into the problems of rest day or night, and I was troubled with night sweats. The pillow my head had lain on would be wet in the morning.

> "In two or three weeks after the time I was taken. I was no longer able to take solid food, or indeed food of any kind. I lived for two months on milk, lime water, brandy, and the like. During that time I lay helpless in bed.

"Often I would have fainting fits. and had to be lifted up and supported in bed. I was now so weak that my friends feared there was no hope for me, and I was anointed by the priest. was taken. He says the Hawailans I had a doctor attending me, but he were the happiest people in Washing- was not successful in giving me any

> "In the following November, although very ill and low, I was able at times to read a little, and then it was that I read one day about Mother Seigel's a bottle made me feel better. I had a trifie more appetite and could eat a little and retain it. So I went on with the Syrup, and when I had used four bottles the cough and all the other troubles left me, and soon I was as well and strong as before. You are at liberty to publish my letter if you desire, for the good of others who may suffer as I did without knowing where to look for a cure. (Signed) Mrs. Honoria Brannan. 42 Great Britain Street, Cork, March 17th, 1894."

> A good letter, a cheering letter, dated on St. Patrick's Day, too. A great thing to be rid of snakes, but a greater thing to be rid of indigestion and dyspepsis-more poisonous than any reptile that ever crawled. And that was the dreadful ailment which gave Mrs. Brennan three months of suffering: the allment that the Scotch women talked of in the train; the ailment that inflicts more pain and fills up more graves than all the other ailments on earth put together.

And yet Mother Seigel's Curative Syrup cures it as fast as people hear of For sale by all druggists and Jeal- it and take it. That's why we keep Benson, Smith & Co., agents for telling about it, and printing what l everybody tells about it over and over.

The clearest skin, free from pimple, spot, or blemish, the softest, whitest hands, shapely nails, and luxuriant, lustrous hair with clean, wholesome scalp, are produced by Currcura Soap, the most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for tollet, bath, and nursery. The only preventive of pimples, blotches, red, rough, and olly skin, red, rough hands with shapeless nails, and baby blemishes, because the only preventive of the cause, viz.: inflammation and clogging of the PORES.

#### Col. Parker Talks Further to the war. on Arithmetic.

Modes of Expression-Mrs. Parker Makes Strong Plea for Development of Color Sense

The Summer school opened yesterday morning with the singing of "Hawaii Fair," composed by Philip Henry Dodge. The song pays tribute to the beauties of the Islands and is a plea for higher life. Col. Parker in opening his morning lecture thanked the teachers for their constant attendance. He said that it is a sad thing to see anyone stop studying, to close his account with books. Of all persons in the world the teacher should be the last to stop. It is a happy thing to see people studying all through their lives. Referring to numbers and their functions, Col. Parker said that it was a question whether or not numbering should be learned without the specific application for its use.

The remaining time of both lectures was devoted to a discussion of Arithmetic. Several of the teachers entered | wealthy. into the discussion and expressed their views. Some old ideas were roughly handled by Col. Parker, especially the tamiliar phraseology in d.vision, when the number of articles is so many "times" greater or smaller. He has a horror for the abstract. He says he is a teacher of children and not philosophers and there is scarcely a child who can grasp the meaning of that "times." The Colonel says he considers it a compliment when people tell him that he has upset their old theories in teaching. His belief is that a child should be reasoned with from the child's point of view and that teaching is getting the child to tell what he knows.

Mrs. Parker talked on the modes of bring the whole being into perfect symnourished and stimulated when the senses of the child are first awakening, atrophy takes place. The normal state insists upon expression. Expression is understood in speech but the average human being falls to see or understand expression and the craving for it in the other senses. It is time. she says, that one should respond in music, color, making. Every mode helps each other mode. Each of them plays an important part in developing the body. Singing, for instance, assists the speaking voice, it assists in bringing into active use the side and lung muscles, it develops the chest and choulders, it makes better blood by inducing a more rapid respiration. And singing is but one of the many modes of expression. Mrs. Parker said that every mother should insist on plenty of exercise for her children. She made an eloquent plea for the development of the color sense. Every trade, every art, depends to such an extent upon the proper understanding of form and color that it is almost a crime not to give the child free play of his color sense. The child will not be easily discouraged as his critical sense is developed along with his ability to fashion and make.

#### TALK ON CHILDHOOD.

Miss Allen's Address to the Summer School Last Night.

Miss Allen gave a delightful talk of an hour at Progress hall last evening on the subject of "Childhood." The room was all but filled with pupils of the Summer school and people of the city. Most of those present were

Miss Allen handled her subject from the standpoint of a teacher in the kindergarten, and evinced a thorough knowledge of it. She first discussed the child nature, and then took up the question of knowing and training it. Of the work for children she observed that "it is not a question of patience but of sympathy." She agreed thoroughly with Colonel Parker in encouraging the myth in training; in personifying to intensify; in Santa Claus, and in humoring whims to certain degrees

After the lecture a number of teachers gave instances in their schools bearing upon the subjects treated by Miss Allen

A ROYAL FUNERAL.

Mrs. Ninito Sumner Buried Yes-

terday With Special Honors. The funeral of Mrs. Ninito Sumner. which took place from the Catholic Cathedral at 10 o'clock yesterday morning, was carried out after the manner of Hawaiian royal burial ceremonies. Governor Cleghorn, Princess Kajulani and Prince David Kawananakoa were among those present. The latter represented Queen Dowager Kapiolani. There were pall bearers and Kahili bearers. The yellow feather cames of royalty were worn by some

of the attendants. The Bishop of Panopolis conducted the funeral. He was assisted by Fathers Clement, Oliver and Ethelbert. Father Valentine conducted the music and accompanied the body to the grave. The pall bearers were: Fred W. Weed. George Sea, Robert W. Wilcox, J. W. Bipikane, Ah In and Hoo-

Nanito was a member of the royal family of Tahiti. She came here many years ago betrothed to Prince Moses, a brother of Kamehameha III, but that Prince had died suddenly. The visiting princess was courted and won by the husband who survives The family has always been her.

#### "ТОМ" IS GONE.

Death of the Veteran Mascot Cat of the Alameda.

Chief Engineer Little's handsome big cat Tom, for thirteen years the number of men sent out to work on mascot of the Alameda, died at San Francisco when the ship was last in that port. Tom was buried at sea.

Tom was probably the most traveled cat in the world, and had he lived to reach Sydney, N. S. W., would have earned a gold collar for having sailed a million miles by sea. When he died trial, which it was found best to dehe wore a silver collar, which marked termine before leaving Honolulu for the completion of 700,000 miles of Manila. expression. Each mode is a necessity travel. It was presented to him in in developing some part of the brain to Sydney and bore the following inscripting the whole being into perfect symton: "Old Tom. S. S. Alameda. Premetry. Unless the nerve cells are sented by his American admirers, July 4, 1896." When Tom was a kitten he forsook the bark Alden Besse and took up his abode on the Alameda. Chief Engineer Little was the only person aboard with whom he would make friends, and to him he remained faithful until the hour of his death.

Of the thousands who have sailed the Southern seas on the Alameda there is not one but will remember Tom and his owner. They were great subjects for the camera fiends and Mr. Little has over fifty different pictures by various artists of the dead cat.

Yarn That Would Involve People Seriously.

Concerning Repairs to Collier Brutus-Charge of Criminality Made In Coast Paper.

A late Examiner prints a sensational story to the effect that the trouble with the Collier Brutus was caused by filings deliberately and criminally left in the steam cylinders by a German workman of the Honolulu Iron Works. The story comes from Honolulu and the writer claims to have gathered his information from a letter written by an officer of the Brutus.

The Iron Works people are most emphatic in their denial of the statements made. Manager Hedemann says he was highly complimented by the officers and engineers of the Brutus on the workmanship of his men, and after most thorough examination the work was approved.

The dispatch states that the filings were in the steam cylinders. It is pointed out that no work was done there. The Iron Works men were, engaged in boring on a safety valve, but filings left there could not possibly have created the trouble and damage.

At the bottom of the whole matter oppears to be a man who was recently discharged from the Iron Works. That party has long been jealous of the one German who happened to be among the the Brutus. It is believed that the letter from the "officer" was written by this man.

It is stated at the Iron Works and with what appears to be most conclusive authority that the Brutus did not return on account of her machinery, but for another purpose altogether. It had to do with a court mar-

#### BIG SWORD FISH.

First of the Kind Brought to New

An immense aulepa-sword fishover eighteen feet long, was caught of Diamond Head yesterday about noon by Keohana, a native fisherman. It was brought to the public market and was soon disposed of to the natives and Japanese, who consider it a great delicacy. The upper and lower swords disappeared also and the only thing now left of the monster is the upper fin, which measures about three feet long by two feet in breadth, and hangs drying in the air in front of the fish inspector's office. It looks all At St. Andrew's Cathedral yesterday the world like a huge bat's wing and

The aulepa is the deep water genus of the same species as the auku, an exception of the sword-like projections' on both lower and upper jaws and an immense fin on the back.

There is more or less superstition amongst the native fishermen about the aulepa and auku and the hoodoo evaporates only after certain incantations. "Mai aloolo aku a ku ike au" is a proverh which in plain United States means "beware of the sword fish." In ancient meles these creatures are deified and no fisherman in the old days permitted his shadow to fall from the cance on the water unt.l sure none were around.

Anlepa were brought sometimes to ing the past week still continues. the old fishmarket years ago, but this is the first time it has appeared in the new market. Terrible tales of encounters with these fish are told by old light cargo, consisting of 5,000 bunches fishermen. Several times have canoes of bananas, 300 bags of rice, 4,000 bags been speared through and through with of sugar and the usual quantity of their sharp swords. In the case of Keohana, he had a very heavy lead atand the weight seemed to overpower struggle and was hauled into the boat.

are: 162 feet length, 36.8 feet beam, and 13 feet hold. She will carry about 750,000 feet lumber or 1,100 tons sugar. She is named after the port on the Island of Hawali to which she will run. She is chartered on her first voyage to load lumber at Tacoma for Sydney, coal at Newcastle for Kahului and sugar from Kahului to San Francisco.

Captain Wm. Olsen will take command of the vessel. A SCHOONER LINE.

Hughes and Harris of Honolulu Sailing From Seattle.

Mr. Hughes, lately with the Mutual Telephone Co., and S. J. Harris, a luna at Oahu prison, purchased the achooner Concord at Seattle and were to have sailed from Seattle on the 15th inst. for Honolulu, with a full cargo of genbesides Hughes and Harris in the extons burden. If the traffic pays she will ply regularly between Honolulu and the Sound.

Harry Ingham booked at Seattle for the schooner and probably sailed by her for Honolulu.

#### New castle Collier Bound in.

At Newcastle, N. S. W., the barkentine Wrestler, under advices of July 1st, had just been engaged for coal to Honolulu. The departures to this port during the preceding month aggregated 5,303 tons of coal. The Vincent, Wrestler and Harvester follow with about 5,500 tons. The current freight rate quoted is 19 shillings. The following vessels sailed for Honolulu from Newcastle during June: Enterpe, 1,540 tons, June 9th; C. F. Crocker, 1,200 tons, June 12th; E. K. Wood, 758 tons, June 19th; Colusa, 1,805 tons, June

#### Delayed Honolulu Packet.

The schooner Himalaya, one of the delayed Honolulu packets, arrived at San Francisco July 9th. She encountered nothing but light winds throughout the trip, and was thirty-three days from port to port. The schooner John G. North, twenty-one days from Honolulu, arrived the same day, and her skipper reports having encountered the lightest winds he has ever experienced.

#### Notice to Ship Captains. U. S. Branch Hydrographic Office, San Francisco, Cal.

By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operate with the Hydrographic Office by recording the meterological observations suggested by the office, can have forwarded to them at any desired port and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters which they frequent.

Mariners are requested to report to he office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publication of the pilot charts of the North Pacific. W. S. HUGHES.

Lieutenant, United States Navy.
